Re: Coronavirus

As we know, COVID-19 is in our State and our health and safety is a high priority. Coronavirus is a flu-like illness, with symptoms primarily consisting of fever, body aches, cough and occasionally nausea or diarrhea. Federal, State, and local health authorities are recommending residents take the same steps to protect from the Coronavirus as we take to prevent the spread of everyday illnesses like the common cold or flu:

- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use a greater than 60% alcohol-based hand sanitizer.
- Avoid touching your eyes, nose and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Department of State Health (DSHS) Services has recommended to the public that you maintain at least 6-8 feet between you and a person who is symptomatic to reduce the risk of spread of the virus.
- DSHS has indicated that evidence shows that the virus is not able to survive in the ventilation system.
- If you have contact involving a person who is symptomatic and the proceeding must continue, attempt to isolate that contact to reduce the risk of interaction with others.
- Stay home when you are sick.
- Cover your mouth and nose with a tissue when sneezing or coughing then discard tissue. IF a tissue isn't available, use the inside of your elbow.
- Clean and disinfect frequently touched objects and surfaces.

I ask each of you to personally monitor this serious matter. This office, our local EMS office and other County Officials will stay informed through the Center For Disease Control and Prevention, Texas Department of State Health Services and other trustworthy health centers to help safeguard our residents.

(See attached Novel Coronavirus (COVID-19) Fighting Products)

Novel Coronavirus (COVID-19)—Fighting Products¹

The American Chemistry Council's (ACC) Center for Biocide Chemistries (CBC) has compiled a list of products that have been pre-approved by the U.S. Environmental Protection Agency (EPA) for use against emerging enveloped viral pathogens and can be used during the 2019 novel coronavirus (COVID-19) outbreak. This product list is not exhaustive but can be used by business owners, health professionals, and the public to identify products suitable for use against COVID-19.

The information in this document is being provided as a public service. All efforts have been made to ensure the information is accurate, but ACC and CBC make no representations or warranties as to the completeness or accuracy of the information. ACC, CBC, and the product manufacturers listed in this document reserve the right to change, delete, or otherwise modify the information without any prior notice. Persons receiving this information must make their own determination as to a product's suitability prior to use based on the product labeling. ACC and CBC do not guarantee or warrant the standard of any product referenced or imply approval of the product to the exclusion of others that may be available. All products listed are registered for labeled uses in accordance with federal laws and regulations as of the date this document is being made available. State regulations may vary. In no event will ACC or CBC be responsible for damages of any nature whatsoever resulting from the use of or reliance upon products to which the information refers.

For use of the product, please contact the company/distributor to confirm use directions, or consult the EPA approved label at <https://www.epa.gov/pesticide-labels/pesticide-product-label-system-ppls-more-information>.

As a public service, CBC is maintaining this list of antimicrobials that have proven to be effective against stronger pathogens, such as norovirus or ebola. By publishing and maintaining this open list, CBC relieves federal, state, and local health officials' resources in order to focus on other aspects of the important effort to limit spread of this new disease. Listing is voluntary and compliance with EPA's "emerging viral pathogen" guidance for antimicrobial products is verified by CBC. CBC will be working with federal and state officials to disseminate the list and make it accessible to all those who need to be in the know.

ⁱ To include a product on CBC's list of Coronavirus—Fighting Products, please contact Ms. Komal K. Jain at komal_jain@americanchemistry.com
