**§ 4.2 Plat Exceptions (or Exemptions)**

**(A) Exception Types and Post-Exception Application –**

- (1) **Statutory Exceptions** – The plat exceptions (or exemptions) described in § 232.0015 of the Texas Local Government Code are adopted and approved for use and application in the Regulations. The County shall not require the Developer of a tract of land located outside the limits of a municipality to have a plat prepared or approved if one or more of the plat exceptions described in § 232.0015 exist.
- (2) **Local Exceptions** – Pursuant to § 232.0015(a) of the Texas Local Government Code (in part stating that a county need not require platting for every division of land otherwise within the scope of Subchapter A of

Chapter 232 of said code), the following local exceptions are hereby adopted for use and application in these Regulations:

- (a) **Litigation Exception** – A subdivision plat is not required to be filed if a division of land occurs pursuant to a final judgment issued by a court in a lawsuit or probate proceeding.
- (b) **Inheritance or Gift Exception** – A subdivision plat is not required to be filed if: (i) the land being divided is (1) inherited property between heirs, (2) being divided between donees who have acquired title by gift deed, or (3) being divided by a probate court action or agreement in said court; (ii) each of the resulting tracts or lots meets the applicable requirements of these Regulations; and (iii) the heirs or donees are related to the testator or donor within the third degree of consanguinity or affinity, as determined by Chapter 573 of the Texas Government Code; but (iv) provided however this exception does not apply if the division of land will (1) change the boundary between two legally platted lots, or (2) decrease the area of land described in a legally platted subdivision.
- (c) **Small Tract Transaction Between One Grantee and One Grantor Exception (Purchase/Sale or Gift Transaction)** – A subdivision plat is not required to be filed if:
  - (i) Grantee and/or Grantor shall provide written documentation to the County that the division of land is between one party Grantee and one party Grantor;
  - (ii) Grantor shall provide written documentation that Grantor is not selling or dividing any other real property connected to Grantor's property ("Parent Tract") for a period of 5 years after this transaction occurs and if Grantor does decide to sell or divide another part of the Parent Tract before 5 years, Grantor must acknowledge in writing that Grantor must file, and in fact shall file, a Subdivision Plat Application with the County under these Regulations, and thereafter Grantor shall obtain plat approval from the County, or provide documentation as to how another plat exemption (or exception) under these Regulations is applicable;
  - (iii) Grantee and/or Grantor shall provide written documentation to the County that the division of land made the subject of said transaction between those parties leaves the resulting Subdivided Tract to be owned by Grantee with a total of 10 acres or less and not more than 2 lots or other divided parts; and

- (iv) Grantor and/or Grantee shall provide the County with:
  - (1) written documentation acknowledging that a water well to serve a lot or divided part will not be drilled unless the owner of the well complies with the rules of the appropriate Groundwater Conservation District (or Water District, either Kimble County GCD or Hickory UWCD No. 1 as the case may be) to the permitting, registration, use, spacing, and pumping requirements of said district;
  - (2) written documentation from the County's wastewater, sewer, and septic/OSSF regulation officer (or agent or designee) approving the transaction and stating that all things pertaining to wastewater, sewer, and septic/OSSF in the subdivision are compliant with minimum state standards;
  - (3) written documentation that the subdivision complies with the County's active floodplain management, sewer, septic/OSSF, or other development regulations related to floodplain prevention, floodplain management, or flooding; and
  - (4) written documentation that neither Grantor nor Grantee are attempting to designate any roads, alleys, ditches, bridges, culverts, drainage or stormwater facilities, easements, and/or other such facilities for the use or benefit of the public (or as public County roads or facilities), and that the County shall never be obliged or obligated in any way to construct, maintain, or repair any roads, streets, alleys, ditches, culverts, drainage or stormwater facilities, easements, and/or other such facilities within the subdivision, nor shall the County ever be obliged or obligated to construct, maintain, or repair any non-county roads, which provide access to the property.
- (3) **Post-Exception Application.** Notwithstanding anything to the contrary stated in these Regulations, after a lawful exception is recognized and used pursuant to this § 4.2, and should any lot or parcel thereafter (or after a specific period of time, if any, designated by these Regulations) be sold, conveyed, given, or otherwise transferred to an individual or entity that does not meet one or more of the exceptions herein described, the platting requirements of these Regulations shall apply.

- (B) **Previously Platted Lots** -- Pursuant to § 232.010 of the Texas Local Government Code, the conveyance of portions of one or more previously platted lots by metes and bounds description may be authorized by the Commissioners Court to occur without revising the approved and recorded plat if: (1) the conveyance does not violate, alter, amend, diminish, or remove, any recorded covenants, restrictions, or vested property rights; and (2) a variance is obtained pursuant to these Regulations.
- (C) **911 Emergency Service Addressing** -- Should a plat not be required by these Regulations, the Developer is requested to submit to the County (at no charge to the Developer) the location of the development project to the following public office in order to confirm correct information for 911 and emergency service addressing purposes: the County Judge at the notice address described in § 3.1 of these Regulations.

#### § 4.3 **Variances**

- (A) **Procedure** -- These provisions apply to variance (also referred to as “waiver”) requests by a Developer seeking: (1) plat approval regarding proposed subdivision development; or (2) MHRC and related infrastructure development plan approval. The variance, if granted, must be the result of the Commissioners Court acting through a recorded vote at a public meeting.
- (B) **Application** -- A Developer may request a variance from the County regarding these Regulations through the timely submission of a written variance request to the County Judge at the notice address described in § 1.3. Regarding a variance sought from the County’s subdivision regulations, the variance request must be submitted with the Subdivision Plat Application as described in **Appendix/Exhibit A**, and a variance application fee of \$250.00 (being the grand total of the variance fee required, whether one or more variances are requested) must be paid to the County for all subdivision variances requested (as described in Appendix/Exhibit D). Regarding a variance sought from the County’s MHRC regulations, the variance request must be submitted with the MHRC Application as described in **Appendix/Exhibit B**.
- (C) **Prohibition** -- The Commissioners Court may not grant a variance regarding: (1) the necessity of an approved plat or MHRC development plan if required by the Regulations; (2) a required bond or other financial security; (3) the payment of fees -- unless, in the sole discretion and best business judgment of the Commissioners Court, the payment of fees is not required and a variance may granted because (a) the applicant is the State government, United States government, other unit of government, or a non-profit entity, or (b) the application constitutes a request for a plat application revision or supplement (prior to plat approval), or constitutes a request for plat cancellation, revision, or amendment (subsequent to plat approval), and in either event, all prior fees were properly and timely paid to the County; and (4) a variance which violates the variance standards hereafter described. Pecuniary hardship standing alone does not constitute an undue hardship or special circumstance to support the granting of a variance.
- (D) **Standards** -- A variance to these Regulations may be granted by the Commissioners Court,

when the submitted evidence and the attendant circumstances establish, in the sole discretion and best business judgment of the Commissioners Court, the following:

- (1) a special circumstance must exist which, if these Regulations are strictly enforced, will deprive the Developer of a privilege, use, or safety enjoyed by similarly situated property owners or developers with similarly timed development of the same nature and scope;
- (2) the variance will constitute only a minimum departure from the Regulations, and will not constitute a violation of state or federal law;
- (3) the variance will not create a special privilege, use, or safety for the Developer that is not enjoyed by similarly situated property or developers with similarly timed development of the same nature or scope;
- (4) the variance must be based on the general intent of the Regulations and deemed to be in the public interest;
- (5) the variance must not prevent or impair the safe, healthy, or orderly development of other land in the area in accordance with the Regulations; and
- (6) an ad valorem tax delinquency must not exist regarding the land made the subject of the proposed development.

**§ 4.4 Plat Cancellation, Revision, and Amendment** -- The County adopts the: (a) plat cancellation requirements of §§ 232.008 (general cancellation) and 232.0083 (obsolete plat cancellation), Texas Local Government Code; (b) plat revision requirements of § 232.009 of said code; (c) plat amendment requirements of § 232.011 of said code; and (d) dormant plat requirements of § 232.002 of said code.

**SECURITY REQUIREMENTS**

## **BOND OR OTHER FINANCIAL SECURITY REQUIREMENTS**

### **1. General Requirements**

- (a) **Bond or Financial Security Required.** Notwithstanding anything to the contrary stated in these Regulations -- and prior to plat approval during the plat review process -- should the Commissioners Court determine (as an exception to the County's general non-acceptance policy) that a road, street, bridge, culvert, driveway, or area of common use which is described and dedicated to the public on the plat (hereafter described as "the aforesaid dedicated facility or infrastructure") as an exception may be considered by the Commissioners Court at a later date for acceptance into the County's public road, bridge, or drainage system of operation and maintenance, then, and in that event: (i) the Developer must execute prior to plat approval a good and sufficient bond for the construction and maintenance of the aforesaid dedicated facility or infrastructure unless another financial security or guarantee is authorized by these Regulations; and (ii) the bond or other financial security or guarantee must be approved by the Commissioners Court to predicate plat approval.
- (b) **Approval.** The bond or financial guarantee (or security) must be submitted to and approved by the Commissioners Court in a form and amount required by these Regulations, and that amount must be adequate to ensure proper construction of the aforesaid dedicated facility or infrastructure for the subdivision but must not exceed the estimated cost of construction. The bond or guarantee (or security) shall apply to and be in a form and amount sufficient to ensure, the proper construction of the aforesaid dedicated facility or infrastructure for the subdivision.
- (c) **Construction/Maintenance Limitations for Public Dedication.** Upon plat approval, the County expressly does not accept for County construction, operation, repair, or maintenance purposes the aforesaid dedicated facility or infrastructure described on the plat. Upon plat approval, the construction or maintenance of the aforesaid dedicated facility and infrastructure described on the plat shall remain the responsibility of the Developer (in accordance with these Regulations and the approved bond or other security or guarantee) until said facility or infrastructure are accepted, if ever, by the Commissioners Court by a subsequent, separate acceptance order being enacted and approved by the Commissioners Court.

### **2. Bond Requirements**

- (a) **Bond Payee or Beneficiary Description.** The bond shall be payable to the County Judge (in his official capacity) or his successor in office, fully executed by the Developer and his surety, and approved by the Commissioners Court prior to plat approval.
- (b) **Bond Surety Requirements.** The bond surety shall be a corporate or other business entity surety, as may be approved by the Commissioners Court. The County's

criteria for surety acceptability includes the following: (i) the surety must be registered with the Texas Secretary of State and be authorized to do business in Texas; (ii) the surety must have authority to issue bonds in the amount required by the Commissioners Court; and (iii) the surety must have a rating of at least B from Best's Key Rating Guide -- or if the surety company does not have any such rating due to the length of time it has been a surety company, the surety must demonstrate eligibility to participate in the surety bond guarantee or security program of the Small Business Administration of the United States government and must be an approved surety company listed in the current United States Department of Treasury Circular 570. Such bonds shall meet the criteria contained in the rules and regulations promulgated by the United States Department of Treasury.

- (c) **Bond Amount.** The bond must be in an amount determined by the Commissioners Court to be adequate to ensure proper construction of the aforesaid dedicated facility or infrastructure requirements for the subdivision but must not to exceed the estimated cost of construction.
- (d) **Bond Condition.** The bond shall be conditioned that the aforesaid dedicated facility and infrastructure for the subdivision (which shall be specifically named and described in the bond) shall be: (i) constructed and maintained by the Developer in accordance with all specifications, requirements, and standards described in these Regulations; and (ii) constructed within a reasonable time set by the Commissioners Court, but not less than one year from the date of plat approval.
